

Bulletin - Agricultural Experiment Station, R

By University Of Puerto Station

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 208 pages. Dimensions: 9.7in. x 7.4in. x 0.4in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1911 edition. Excerpt: . . . The plant house is 88 by 124 feet, partly covered with glass and partly with wire netting. An additional weighing room, 30 by 15 feet, made of cement and covered by tile, was constructed. This house is equipped with cars and tracks, on which pots are mounted for soil and plant studies. (See Pl. I, figs. 1 and 2.) The old sugar-mill building, 29 by 196 feet, had the south wall torn out and rebuilt and was covered with a tile roof. It is used for the storage of heavy chemicals, apparatus, and hand machinery. The improvement of the station grounds was continued, wooden culverts, fence posts, etc. , being replaced with cement structures. The distribution of seeds, plants, and cuttings has been larger than in any previous year. This includes valuable importations which have been tested at the station and others of...
