Excerpt: .and merriest in the love time, which is the springtime, his cheery nature keeps bubbling over well into fall, in sheer exuberance of spirits, until cold weather dampens his ardor. His joy, so a scientist tells us, rises and falls so absolutely with the thermometer, that it is possible to calculate the temperature with a reasonable degree of precision by the pitch of the cricket s shrilling. But, however the male cricket may evince his joy, we are entirely in the dark as to the degree of response in his dusky mate. Her story is untold, at least in any language we have learned to understand, for she is voiceless. THE CRICKET A FIDDLER Indeed, it is only by a stretch of the imagination that we may call the chirp of the cricket its voice. These strange creatures are soentirely different from us in every way that, though even the scientist uses human terms in speaking of them, these terms only apply by the roughest analogies. Their eyes are unlike our eyes, and must present a totally different picture of the landscape. Their ears are so different from ours and so strangely placed that we were long in doubt as to what the organ meant and still in many cases are uncertain. Their aws have positively no relation to our jaws; indeed they probably were originally legs, and they work from side to side instead of up and down as our jaws do. And...
