It is a single of my personal favorite publication. It usually fails to charge an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Wipf Stock Publishers, United States, 2008. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Description: In this provocative book, evolutionist and evangelical Christian Denis O. Lamoureux proposes an approach to origins that moves beyond the evolution-versus-creation debate. Arguing for an intimate relationship between the Book of God's Words and the Book of God's Works, he presents evolutionary creation--a position that asserts that the Father, Son, and Holy Spirit created the universe and life through an ordained and sustained evolutionary process. This view of origins affirms intelligent design and the belief that beauty, complexity, and functionality in nature reflect the mind of God. Lamoureux also challenges the popular Christian assumption that the Holy Spirit revealed scientific and historical facts in the opening chapters of the Bible. Lamoureux shares his personal story and his struggle in coming to terms with evolution and Christianity. Like many, he lost his boyhood faith at university in classes on evolutionary biology. After graduation, he experienced a born-again conversion and then embraced belief in a literal six-day creation. Graduate school training at the doctoral level in both theology and biology led him to the conclusion that God created the world through evolution. Lamoureux closes with the two most important issues in the origins controversy--the pastoral and pedagogical implications. How should churches approach this volatile topic? And what should Christians teach their children about origins? Endorsements: Having traveled a path himself from atheist to young earth creationist to evolutionary creationist, Denis Lamoureux has thought deeply about the intersection of the truths of the Book of Nature and the Book of the Bible.
