He does not keep putting coal in the furnace, and maintaining a high pressure after the work is finished, or when the day s portion of the work has been done, and the fires should be banked until the next day. Some people act as if the engine should be kept running whether there was any work to be done or not, and then they complain if it gets worn out and wobbles and needs repairing. These mental engines are fine machines, and need intelligent care. To those who are acquainted with the laws of mental control it seems absurd for one to lie awake at night fretting about the problems of the day, or more often, of the morrow. It is just as easy to slow down the mind as it is to slow down an engine, and thousands of people are learning to do this in these days of New Thought. The best way to do it is to think of something else--as far different from the obtruding thought as possible. There is no use fighting an objectionable thought with the purpose of downing it; that is a great waste of energy, and the more you keep on saying, I won t think of this thing! the more it keeps on coming into your mind, for you are holding it there for the purpose of hitting it. Let it go; don t give it another...
