

Energy Performance Modelling and Heat Recovery Efficiency Assessment

Filesize: 7.93 MB

Reviews

The ebook is not difficult in read through easier to comprehend. Of course, it is perform, nonetheless an interesting and amazing literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Dr. Haylee Grimes PhD)

ENERGY PERFORMANCE MODELLING AND HEAT RECOVERY EFFICIENCY ASSESSMENT

DOWNLOAD

To download **Energy Performance Modelling and Heat Recovery Efficiency Assessment** PDF, you should refer to the hyperlink under and download the ebook or get access to additional information that are in conjunction with ENERGY PERFORMANCE MODELLING AND HEAT RECOVERY EFFICIENCY ASSESSMENT book.

LAP Lambert Academic Publishing Okt 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x3 mm. This item is printed on demand - Print on Demand Neuware - This extended research investigates and analyzes a typical multi-zone office building's annual energy performance. The aim is to evaluate the HVAC system's and HR unit's performance in order to conduct the most efficient heating and cooling solution for temperate climate conditions. The energy performance of four HVAC system types (heat pump - air to air, gas - electricity, electrical and fan coil system) were analyzed, compared and evaluated on a virtual office building model in order to assess the total annual energy performance and to determine the efficiency of the HR unit's application. Further, the parameters of an energy efficient building envelope, HVAC system, internal loads, building operation schedules and occupancy intervals were implemented into the multi-zone analysis model. The investigation was conducted in EnergyPlus simulation engine using thermodynamic algorithms and surface/air heat balance modules. The comparison and evaluation of the obtained results was achieved through the conversion of the calculated total energy demand into primary energy. 52 pp. Englisch.
